

Vradis Florez

AI Product Manager

AI Product Manager transitioning into AI engineering. I combine product strategy, UX, and programming to prototype, validate, and automate solutions end-to-end. Experienced in LLM workflows, multi-agent systems (n8n + MCP), and full-stack prototyping.

PROFESSIONAL EXPERIENCE

Co-Founder & Product Desinger

Núcleo Studio | Spain (<https://nucleostudio.co/>)
07/2024 - Currently

IT Project Manager

Digitalia Tec | Peru
12/2022 - 09/2023

- Led the redesign and development of the Seller Center for Juntoz (e-commerce Marketplace), generating a 20% increase in digital sales and improving the efficiency of workers and sellers on the platform. I was in charge of 5 people in the team: 2 UX, 1 UI and 2 developers.

Product Designer

Digitalia Tec | Peru
08/2021 - 11/2022

- Designed UX/UI wireframes, sketches and prototypes adapted to various devices increasing retention rates in education, consulting and technology sectors.
- Optimized user experience through service blueprints, user archetypes and navigation flows.

Project Manager

Mambo | Peru
01/2021 - 07/2022

- Led the sustainability strategy for Izipay (fintech) from conception to production(e2e). In charge of 3 project analysts.
- Developed "izicamp," an e-learning platform for Izipay's sales force nationwide, achieving a 22% increase in sales and greater operational efficiency.
- Collaborated in the loyalty strategy for the Key Account Managers of Entel (Telco).
- Led the redesign of Mambo's business model to achieve B Corp certification.
- Established KPIs, achieving 90% satisfaction in all projects.
