Technical Product Manager with 5+ years building B2B digital products end-to-end. I translate business objectives into technical solutions, combining product strategy, UX design, and full-stack development. Experience across e-commerce, fintech, and edtech, moving fast from discovery to launch while delivering measurable business impact.

AREAS OF EXPERTISE

- Product Strategy & Execution
- Product Roadmapping
- UX/UI Design & Prototyping
- User Research & Discovery
- Full-Stack Development
- Workflow Automation

PROFESSIONAL EXPERIENCE

NÚCLEO STUDIO nucleostudio.co

Madrid, Spain

Technical Product Manager & Co-Founder

June 2024 - Present

- Led product positioning strategy for B2B tech clients through competitive research, customer analysis, and messaging framework development across fintech, venture capital, edtech, and e-commerce sectors.
- Developed and shipped 10+ client websites using strategic tech selection (React/NextJS, Webflow, WordPress) based on scalability and performance requirements.
- Designed nucleostudio.co with automated lead pipeline (Cal.com, n8n, Notion, Airtable) reducing manual prospect qualification from 2 hours to 15 minutes per lead.

FLUYE BOTTLE (Contract)

Remote

Technical Lead

January 2025 - March 2025

- Led development of cart abandonment recovery system with automated email workflows and dynamic coupon generation, enabling Fluye to reduce lost sales through personalized customer follow-ups.
- Developed product filtering and discount system (React/Django/PostgreSQL) and deployed on AWS EC2, enabling automated coupon application and dynamic pricing for promotional campaigns.

DIGITALIA TECH

Lima, Peru

Product Manager

October 2022 - December 2023

- Led Seller Center product strategy for Juntoz (Peru's leading marketplace) through user research and competitive analysis, defining roadmap to transform assisted platform into self-service system.
- Redesigned 7 existing modules and introduced 5 new capabilities based on validated seller needs, prioritizing features by business impact and technical feasibility.
- Achieved 5% sustained monthly growth in active seller adoption through intuitive onboarding flows eliminating account manager dependency, validated through usability testing with 15+ sellers.

MAMBO

Lima, Peru

Project Manager

January 2021 - August 2022

- Developed "izicamp" training program for Izipay (fintech) sales force based on comprehensive research: focus groups with reps, KAM interviews, and field shadowing to identify performance gaps.
- Coordinated deployment across Peru achieving 10% increase in POS activation rate through standardized 2-week onboarding (new hires) and 2-day technical refreshers (existing team).
- Piloted recyclable, BPA-free thermal paper initiative with cost-benefit analysis and national expansion roadmap for Izipay's POS network across Peru.
